

REMARKS

Claims 1 and 3 to 12 are in the application.

In response to the restriction requirement in the Office Action, Applicant hereby elects the invention indicated by the Examiner as Group I on which are readable claims 1, 3 to 5 and 12, as amended.

Applicant retains his right to file a Divisional Application for the invention of Group II on which are readable claims 6 to 11.

As a result of the foregoing Amendment, claim 1 has been amended to set forth the present invention more clearly. No material changes have been made in claim 1.

Claim 5 has been amended to remove the second range of the iron content. Claim 12 has been added to correctly set forth this range; support for the feature of new claim 12 can be found in the specification, page 7, line 8. Accordingly no new matter has been added.

As mentioned above, new claim 12 reads on the elected invention.

Reconsideration and allowance of the present application are respectfully requested.

Any additional fees or charges required at this time in connection with this application may be charged to Patent and Trademark Office Deposit Account No. 11-1835.

Respectfully submitted,
